

## TCM-P102GO

### 1 to 2 Port Gigabit PoE Extender & Splitter

## Feature

- With 10/100/1000Mbps transmission rate, the PoE Repeater features one 30W PoE input port and two 15W PoE output port, running one cable to connect to 2 POE IP devices.
- This POE Repeater adopts a pull-out waterproof box design, a unique waterproof solution, making waterproofing more scientific and effective. High quality ABS plastic shell, more durable. Makes the product perfectly suitable for outdoor use in various weathers.
- The extender work with powerful chips, support intelligent anti-priority paths, and realize high-speed data forwarding, which make more cameras into centralized management easily.
- The PoE Extender is easy to setup with no software installation or configuration required. Perfect for Security Camera CCTV Surveillance, greatly extending the network signal transmission as well as power supplying distance.
- The PoE Extender supports wall mounted. (Vertical placement is good for waterproof use) Moreover, We committed to provide product- replace- without- repair service within 1 year, more concern on your using experience.

Specification	TCM-P102GO
Product name	POE Extender
Speed	10/100/1000Mbps
Power	44-55V DC 0.5S from PoE
Consumption	15.4w
Power Method	1/2(+),3/6(-) or 4/5(+),7/8(-)
Transmission Distance	100meters
Waterproof	IP66
Protocol	IEE802.3af/at
Working Temperature	-10~60 °C
Working Power	44-55V DV 0.25A
Working Environment	Indoor & Outdoor
Size	14x9.5x4cm
Packing weight	0.2kgs
